

Monday 14 Th September

Spring is certainly here with the warm weather. At calendar time we discovered that the Season is called Spring, no longer cold winter. There are changes in our environment. So the frost and snow came down from the tree in the classroom to make way for the beautiful blossoms we made today. Rolling and scrunching tissue paper to decorate the patty papers as our blossoms. The story today was about Mrs Honey's Hat . See wore her hat to protect herself from the sun, but all these odd things happened to her hat, things that "Mrs Honey didn't even notice!"

The puppies returned today, prompted by having animal puppets in the big box. Vicki helped the children to make up stories with the finger puppets. The children took turns and recognized colours playing the snail game.
